

# Muhammad Shahrukh

ASP.NET MVC Developer

I am a Dot Net Developer with strong verbal & communication skills. I am looking to apply my breadth of knowledge on leading-edge software development projects and be given the opportunity to showcase my skills at your organization. With approx. 4 years of experience in ASP.NET MVC / C# / SQL Server development, I have a proven track record of taking ownership and building and maintaining high performance systems in a complex, distributed environment.
